**Goal 10:** Achieve cost-efficient financial stability

**Goal 9:** Improve work quality by developing and strengthening organisational capacity and sustainability through capacity building for staff and volunteer

Goals  
**FOR A STRONGER**  
ASKAR ASSOCIATION

# HISTORY

**Askar Association for Community and Development** is from 2019 a recognized NGO located in **Nablus** in the “**New Askar**” camp.

The organisation was established with the vision of contributing to the progress of the society through educating and peace-building amongst all sectors. The founders met in jail during the first Intifada and began to dream of a sovereign Palestinian state there. However, feeling that their means of resistance were inadequate, they started to envision a new state built through non-violent means. After serving their terms in prison and returning to Askar Camp, they established the **Local Rehabilitation Committee for the disabled (LRC) in 1992** to care for those who were injured during the first Intifada.

Non-violent means  
**VALUES**

**ASKAR ASSOCIATION**

Nowadays, its main activities focus on **women empowerment, youth and children, disabilities**, cultural activities and sensibilization of the community about different topics regarding social and economic environment, and the environment itself as part of ourselves as human beings.

As such, the organisation has its primary core focus on the intrinsic links and **challenges between international development cooperation (broadly defined) and development education.**

Due to the actual complex and contradictory global system, the need for **education is essential in empowering the community** in all its different aspects, forms, and needs, to provide people with tools and knowledge to better understand the reality surrounding them and to improve their social and economic chances.

Non-violent means

# ONGOING PROJECTS

## 1 COURSES PROGRAM

to prepare an open-minded generation, through the implementation of training courses (children, university students, disabled, and others)

2

## SUMMER AND WINTER CAMPS PROGRAM

to organise extracurricular activities, provided annually in the Askar camp, with the participation of local and international volunteers

## 3 WOMEN'S PROGRAM

to raise awareness about gender and individual rights through workshops and different activities

3

4

## 4 THE UNIT FOR PEOPLE WITH DISABILITIES

to raise community awareness, through a program for receiving children with special needs, and one for auxiliary tools and home visits for families
